EXPERIENCE

Chief Data Scientist & Co-Founder

Statys.ai

📅 Mar 2019 – Present

- Lead R&D of advanced credit risk modelling, financial crime detection and defined the companies modelling architecture
- Worked directly with large global banks including HSBC to run POCs of our modelling solution within their environment
- Leveraged multiple machine learning techniques including but not limited to: Convolutional Neural Networks, LSTMs and Gradient Boosted Decision Trees.
- Accepted into the prestigious StartUpBootCamp accelerator programme and the FCA's innovation sandbox.

ML Research Lead

Complexiti

📅 June 2017 – June 2018

- Responsible for creation and implementation of Complexiti's Machine Learning products.
- Lead on construction of WildfireAWARE's Machine Learning model. WildfireAWARE is a multi award winning web app capable of predicting with high accuracy the likelihood of wildfires occurring.
- Work recognised by the UN, Microsoft, Business Finland and others (see: Links)

Data Scientist

AMPP Group

📅 June 2018 – January 2019

- Authored and Co-Authored two papers concerning both Machine Learning and Cryptography (see: Papers)
- Research and application of utilising Bayesian Networks to predict financial fraud in decentralised graphical networks
- Productionising ML models via AWS/GCP

Equity Derivatives Trading - Offcycle Intern

JP Morgan Chase

- My role was to act as a technical interface between the derivatives research group and the exotics trading desk I was working on.
- Application and integration of Machine Learning into tooling used by the desk for trading functions.
- Research into the application of Bayesian Optimisation in order to replicate volatility of illiquid options from a universe of highly liquid assets.

HONORS & AWARDS

- 🏆 \$200k raised from VC funds for startup I co-founded
- 🏆 Multi award winning Machine Learning Web app covered by the UN, Microsoft and others.
- 🏆 Presented Machine Learning research at European Space Agency EO data conference.
- 🏆 Masters degree from UCL in Computational Finance specialising in Machine Learning

EDUCATION

MSc Computational Finance

🏛️ **University College London**

📅 September 2017 – June 2018

BSc Mathematics

🏛️ **University of York**

★ First Class Honours

📅 September 2014 – June 2017

SKILLS

Python

JavaScript

SQL

MongoDB

Pandas

Spark

Hadoop

Numpy

Tensorflow

Scikit-learn

NLTK

AWS

Azure
